ments, which is quite often included in the general contract for use in the new high school was to have come from Gould Academy, had the University of Maine taken over the Academy, as was talked about some time ago.

To help offset these increases, \$20,000 was taken from the original estimate of \$240,000 for site development and an athletic field. The contingency fund, originally \$100,000, was reduced to \$20,000 by re-investing three funds to other accounts as they were needed, including \$60,000 for a check of the works, not shown in the original budget.

A \$12,000 increase in the architect's fee from \$70,000 to \$82,000 was necessitated as a result of change orders, and because of the increases in the total cost of the project. The architect is paid on a percentage basis on the total building project.

The new figure for site cost, \$10,000, is higher than the original figure of \$15,000, because it includes the \$1,000 used as a down payment on the site, taken from the 1965 operational budget.

An increase of \$4,000 from the original \$10,000 for water service was necessitated because of problems encountered in drilling of wells at the site.

The major decrease in receipts were NDEA funds, originally anticipated at \$22,000 and reduced to \$1,000. The reason for this decrease is that the Federal Government did not allocate sufficient funds to the states for distribution to the various communities, such as S.A.D. 44.

The state subsidy also was cut by \$23,000 from the original estimate of \$50,000. This decrease resulted from a change in law governing computation of subsidies. Under the original legislation, the NDEA funds could be included in the total, but the new law requires that these funds be excluded from the state subsidy computation.

Other receipts remained the same, \$31,000 on hand, and \$1,000,000 as authorized in the original bond issue note.

The \$20,000 item for consultants has been underwritten through a grant of the Bingham Retirement Fund.

One of the main questions asked by the Committee of 100 was: What will happen if this money is not approved by the voters?

The answer was that there will have to be definite cut backs, particularly in the area of equipment. It could mean leaving out the planned equipment for future areas such as the auditorium seating and craft equipment. Conference seating it could also mean a reduction in the amount of equipment for such areas as science, home economics, industrial arts, music, vocational and physical education. By cutting out or reducing the equipment in the above-mentioned areas, the program to be offered in the new school will definitely be affected. From the beginning of the project, the district and administration have been planning to apply for a central school for a new plant in the area of S.A.D. 44. The school would provide for consolidation of S.A.D. 44 and S.A.D. 45.

After going over the plan-

NEW METHODIST MINISTER WAS MISSIONARY IN VIETNAM FOR 4 1/2 YEARS

The Rev. and Mrs. George Stebbins and family, formerly of Bourne, Mass., who came to Bethel during the summer to accept the pastorate of the Methodist Church, are reading in the parsonage on Mason Street. Mrs. Stebbins is an elementary school teacher and is employed at Woodstock Central School in the sixth grade. The children are Carol Beth and George, who attend school at The Hampden Du Bose Academy in Zellwood, Fla.; Karl in the fourth grade at Crescent Park School, and Scott, a second grade student at Ethel Disbee School.

Rev. Stebbins, who was born in Vietnam while his parents were missionaries there, is one of a family of seven children, six of whom are in missionary work. His early education was received at a mission boarding school in French Indo-China. When he was fifteen, his parents returned to the United States after having spent many years in Southeast Asia. He graduated from the University of California in Berkeley and received his theological training at Wheaton College, Bloomfield College, the Methodist College at New York, N.Y., and the Biblical Seminary in New York City. In 1963, Rev. and Mrs. Stebbins and their two children went to Vietnam as missionaries for Christ Crusade, an international missionary organization with which the Rev. Billy Graham is associated.

During the 4 1/2 years they spent in Vietnam, they founded three churches, and in addition to their gospel teachings, helped the Vietnamese people to fight disease, filth and poverty. Ever-present in the villages to which they traveled were the heat, dirt, disease, fear of Communism and the Viet Cong guerrillas.

Their two youngest sons, Karl and Scott, were born in Saigon, also the two older children were enrolled at the same mission school which their father had attended.

Bethel Church of the Nazarene

20 SECONDS WITH THE NAZARENE

We mean a lot to Some One;
And 'tis everything to me
That to God His wayward children
Were worth a Calvary.
It's the meaning of my Sunday,
And to Saturday from Monday
It is my hope that one day
My Saviour I shall see.
Though the day be dark and dreary,
Here's comfort for the weary—
We mean a lot of Some One
Who died for you and me.
